CASE STUDY

About Boninfante Friction, Inc.

Boninfante Friction, Inc. is the world leader in friction clutch manufacturing for the motorsports market. Boninfante creates custom clutches for an array of applications from street car to full race clutches, from top fuel dragsters and nitro funny cars to F1 and F1H2O boats. Boninfante constantly sets itself apart from the rest of the industry in product quality and customer value. It is no wonder Boninfante Friction is recognized as the worldwide market leader. Since the family's beginning in the clutch manufacturing business in 1988, Boninfante has systematically produced parts of superior quality at competitive cost, thus setting a pace of sustained corporate growth and customer satisfaction.

What we do for Boninfante Friction, Inc.

Performance Plus works with Boninfante Friction on a daily basis. The PPLUS Global Team has helped Boninfante with over 1,000 LTL shipments since 2011. Our Team handles both in and outbound freight shipments as well as the import of containers from overseas. Boninfante depends on Performance Plus to ship, track and deliver all shipments and has provided a huge savings, both in time and money, for Boninfante Friction.

“As a smaller business, we don't have the time or resources to research shipping rates. With Performance Plus, we never need to worry that we are overpaying for freight. With one phone call to Tim, or any member of the team, we know that our shipments are going to be exactly where they need to be, when we need them!”

Customer service is overall the best part about working with Performance Plus. The entire team is so personable; we never hesitate to reach out to them for quotes, shipment status, or any other needs.

Any time we needed help with International shipping, Performance Plus goes above and beyond! Performance Plus has become a key member of our team by taking the worry and hassle out of freight shipments. ”
